

The background of the book cover features a dark, deep blue sky transitioning into a vibrant purple and pink hue towards the bottom. In the upper left, a white commercial airplane is shown in flight, leaving two distinct white contrails that stretch diagonally across the sky. To the right of the plane, a thick, bright red contrail, resembling a meteor or a chemical trail, streaks from the top right towards the center. In the bottom right corner, the dark, intricate silhouette of a tree's branches is visible against the colorful sky.

"The greatest fear of the Deep State operatives pursuing this madness is an awakened public. Elana Freeland brings it all together—she exposes crimes against humanity and planet Earth and includes exploration of the all-important solutions in her must-read book."

—Bob Frissell, author of

Nothing in This Book Is True, But It's Exactly How Things Are

What if the degradation of the planet is not just a byproduct of human greed but the explicit intention of government agencies bought off by corporations? What if their intent is to create a "post-human" global government run by AI, populated by a genetically and electromagnetically altered *Homo sapiens* loaded with nanotechnology and run by 5G/6G/7G transceivers from space?

Building on decades of research, Elana Freeland offers a comprehensive exposé of the transhumanist agenda—the transformation of humanity into a slave class by means of biotechnology, genetic engineering, molecular nanotechnology, and artificial intelligence. She reveals that weather control is already a global reality thanks to the aerosol chemtrails that maintain the ionized atmosphere needed for a myriad of military and civilian wireless operations. The air we breathe, the soil we grow our food in, and the water we drink have all been altered away from Nature and toward a synthetic "metaverse." Meanwhile, Big Pharma injects nano-sized hardware and software *in vivo* that activate a transhumanist brain-computer interface with AI. The author also examines the public-private partnerships behind transhumanism and reveals the reality of the secret space program and the planetary "smart grid" of 5G/6G.

The eons-old dream of global power seems to be coming of age in this overwhelmingly technological era of domination by the wealthy. And yet by exposing the transhumanist agenda and studying the technology being employed to subjugate the human race, we have the opportunity to find ways not just to resist becoming machines ourselves but to utilize our technologies for restoring a high civilization in service to the Good, the Beautiful, and the True.

Elana Freeland is a writer, teacher, and lecturer who researches classified-status issues such as geoengineering, MK-Ultra neural operations, and invasive electromagnetic weapons. The author of several books, including a trilogy on what geoengineering is really about, she lives in Olympia, Washington.
